10"	283	215,90	41,0	14,9	343,5

Notes:

1) Outer periphery of each lens gasket (one half) shall have permanent marking or etching containing following information:

size, material size, manufacturer name, sabic po number

2) The other half of outer periphery shall have permanent color code as per table. The color paint shall not contain any content (such as chlorides) which is injurious to the lense gasket material.

3) Material certification to be provided in accordance with stamicarbon specifications 18005 and 53961 latest revision.

5) Each DN can be supplied having color code as follows:

BC01	Pink
BC02	Red
BC03	blue
